CAMBRIDGE SOUND MANAGEMENT BRINGS CUTTING-EDGE SOUND MASKING TO PUERTO RICO VIA PARTNERSHIP WITH SOUND VISION MARKETING.

Cambridge, MA – April 22, 2011 - Cambridge Sound Management, LLC, a leading worldwide supplier of sound masking, paging and music systems for the workplace, announces a partnership with Sound Vision Marketing an Independent Manufacturer’s Representative firm. Sound Vision Marketing will represent CSM in Puerto Rico.

Sound Vision Marketing is adding Cambridge Sound Management’s cutting-edge Qt PRO™ sound masking, paging and music systems to their line of professional audio products. Sound Vision carries an array of audio products including amplifiers, high performance speakers, and mixers and now the latest in sound masking technology.

“We have experienced tremendous growth across the whole of the United States and as we looked to expand that growth into new markets, Puerto Rico just made sense,” said Jack Heine, President and CEO of Cambridge Sound Management. “To make that introduction we needed the right partner, and Sound Vision Marketing will prove to be that partner in Puerto Rico.”

The Qt PRO™ line of sound masking, paging and music systems ensure privacy and productivity with patented sound masking technology. This 3-in-1 functionality, multi-zone design and coffee cup sized speakers make Qt PRO™ flexible to meet the architectural or functional needs of any installation. Industries such as healthcare and finance, which have privacy regulations, are not the only organizations that can benefit from sound masking. Any business can be made less distracting, more private and more pleasant to work at with Qt PRO™. The system also boasts the lowest power consumption in the industry meeting or exceeding any company’s green standards.

“Sound Vision has been in the professional audio industry for 25 years and we feel that Qt PRO™ is the right sound masking product at the right time for Puerto Rico,” said Tim Yates, Principle of Sound Vision Marketing. “We are thrilled to be working with CSM and Qt PRO™ as we integrate it into a new and thriving marketplace – the possibilities are limitless.”

###

Cambridge Sound Management, LLC, located in Cambridge, MA is the developer of Qt PRO™ sound masking, paging and music systems. Qt PRO™ features cutting-edge distributed audio technology for the workplace that combines extraordinary audio performance, low impact installation and affordability. Qt PRO™ is sold throughout North America and worldwide by a network of resellers and is deployed in millions of square feet of workspace. Qt PRO™ is cost effective for applications ranging from spot masking outside of a single conference room to sound masking of campus-wide installations of unlimited size. Qt PRO™ supports normal acoustical privacy in open plan spaces and confidential speech privacy in private offices. Cambridge Sound Management is a spinoff of technology innovator BBN Technologies. Qt PRO is a trademark of Cambridge Sound Management.
